

Transforming Businesses Digitally

We manage your technology needs,
so you can focus on growing your
business.

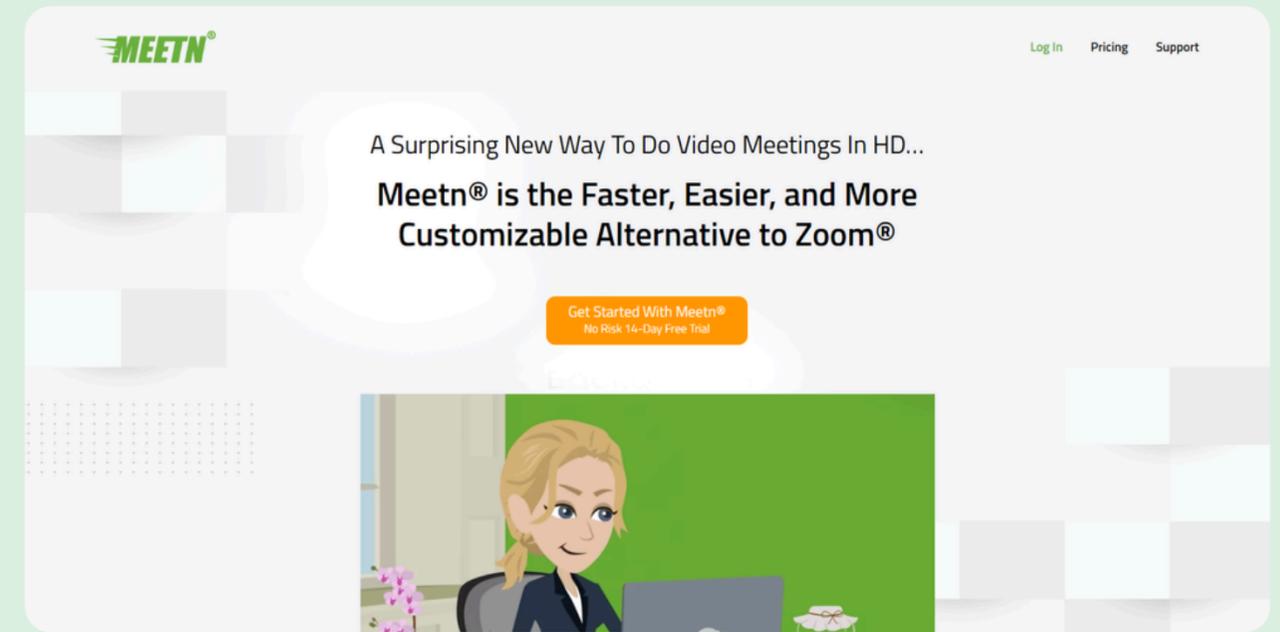

Project Case Studies

Showing our diverse and innovative solutions across various industries, highlighting Whizlancer's expertise in delivering comprehensive, user-centric digital platforms.

MEETN

Online Meeting and Collaboration Platform

Role: Solutions Architect

Location: USA

Website: www.meetn.com

Industry: SaaS/Collaboration

Tech Stack: React, Node.js, WebRTC, AWS

Overview:

Whizlancer developed the entire MEETN platform, an all-in-one virtual collaboration tool. It supports HD video conferencing, real-time chat, screen sharing, and collaborative document editing all within a secure and scalable infrastructure.

Key Highlights:

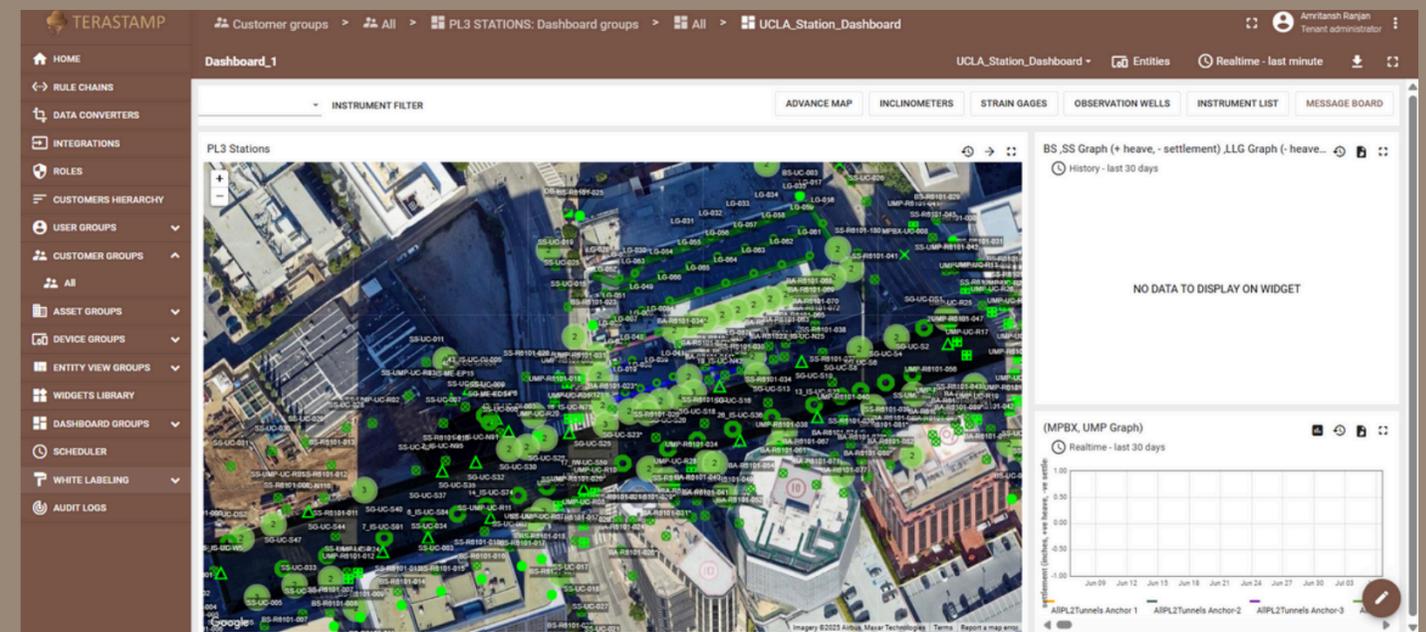

- HD video, chat, screen sharing
- Real-time collaborative document editing
- Secure encryption & user authentication
- Built for scalability & productivity

Impact:

Enabled global teams to collaborate seamlessly, increasing virtual productivity.

Terastamp

E-commerce Platform Services

Role: Dashboard Architect

Location: USA

Website: app.terastamp.com

Industry: SaaS / Construction

Tech Stack: Python/Django,
React, AWS

Overview:

A tailor-made SaaS solution for metro construction projects. It includes real-time dashboards, reporting tools, and collaboration systems for tunnel, track, and station monitoring.

Key Highlights:

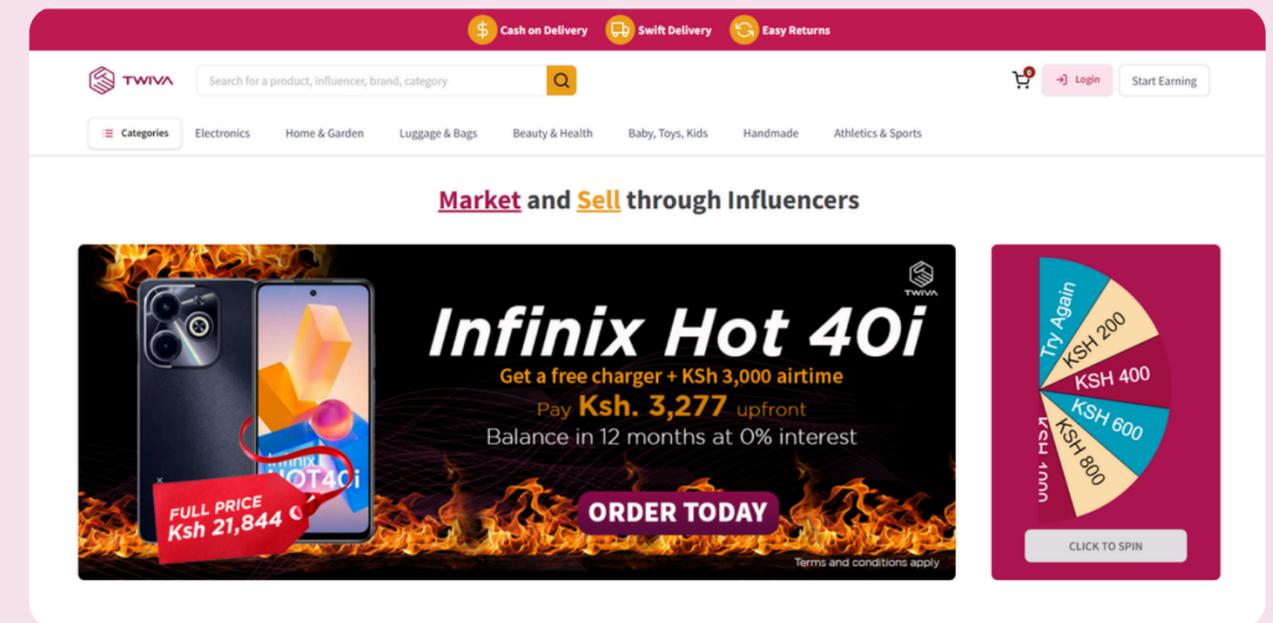

- Real-time safety dashboards
- Automated reporting
- Predictive maintenance alerts

Impact:

Improved communication, safety compliance, and decision-making during construction.

Twiva

E-commerce Platform Services

Role: Platform Solution Engineer

Location: Kenya

Website: www.twiva.co.ke

Industry: SaaS / E-commerce

Tech Stack: Laravel, Vue.js, MySQL, AWS, Kotlin

Overview:

A user-friendly and scalable e-commerce solution with multi-vendor support, secure payment integration, and product personalization features.

Key Highlights:

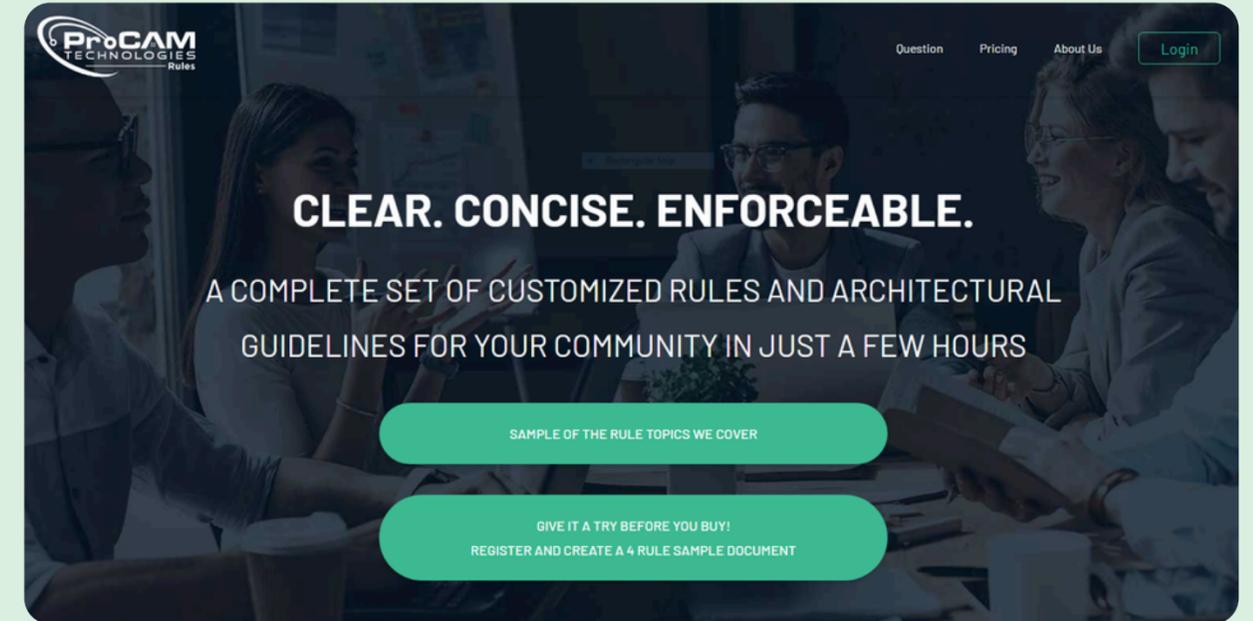

- Multiple product categories
- Secure payment gateways
- Inventory & order tracking

Impact:

Expanded Twiva's digital presence and operational efficiency.

HOA Rule Template

Governance Document
SaaS

Role: Full Stack Developer

Location: USA

Website:

www.hoarulestemplate.com

Industry: SaaS

Tech Stack: Python/Django,
React, AWS

Overview:

A tailor-made SaaS solution for metro construction projects. It includes real-time dashboards, reporting tools, and collaboration systems for tunnel, track, and station monitoring.

Key Highlights:

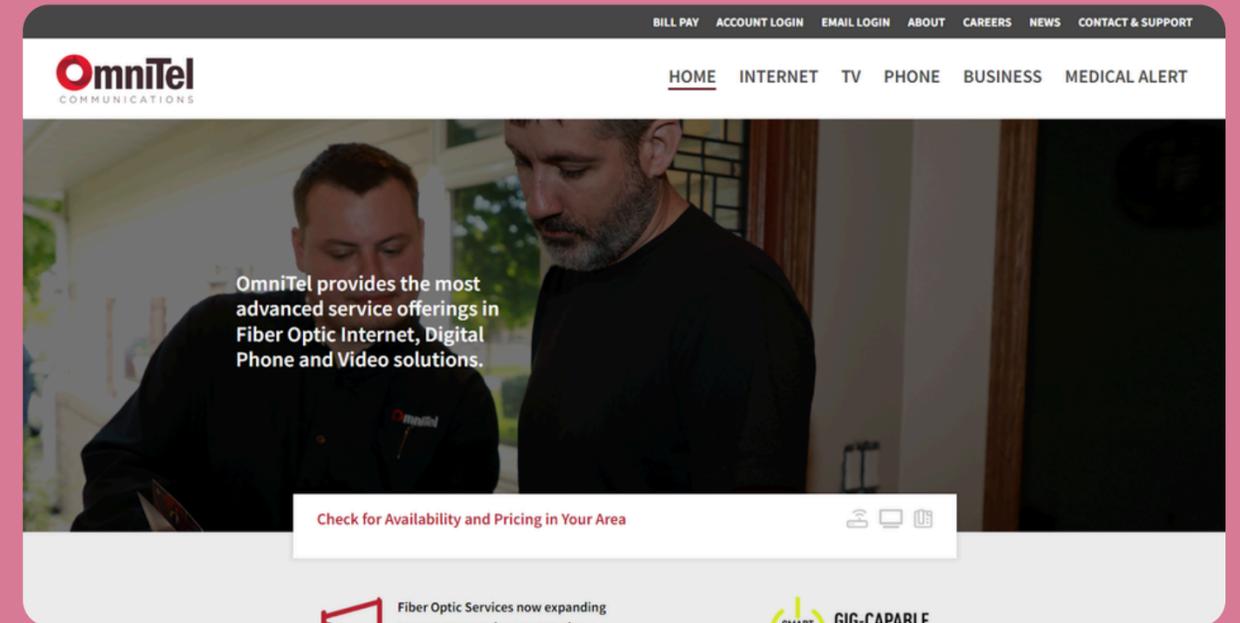

- Real-time safety dashboards
- Automated reporting
- Predictive maintenance alerts

Impact:

Improved communication, safety compliance, and decision-making during construction.

Omnitel

Odoo-Based ERP & CRM System

Role: Platform Solution Engineer

Location: South Africa

Website: www.omnitel.biz

Industry: SaaS / ERP

Tech Stack: Python, Odoo, PostgreSQL

Overview:

A Python-powered ERP & CRM integration using Odoo, streamlining Omnitel's operations from sales to inventory.

Modules:

- Inventory Management
- Procurement & Finance
- Sales CRM

Impact:

Boosted operational efficiency and customer engagement.

Procam

Community Management Platform

Role: Dashboard Architect

Location: USA

Website:
www.tampahoa.management

Industry: SaaS / PropTech

Tech Stack: Laravel, Angular, Swift

Overview:

A clean, responsive HOA community management system providing communication, rule tracking, and community engagement features.

Key Highlights:

- Modern, user-friendly dashboard
- Secure resident communication tools
- Document tracking & digital storage
- Easy HOA rule management

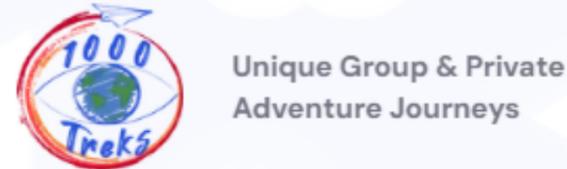

Impact:

Streamlined HOA operations with improved resident experience.
